FIM Antidoping **FIM Grand Prix World Championship**

Update - Andrea Iannone provisional suspension

Following a routine In-Competition doping test conducted at the round of the FIM Grand Prix World Championship held in Sepang, Malaysia on 3 November 2019, Mr Andrea Iannone tested positive for a WADA prohibited substance and is now provisionally suspended since 17 December 2019.

Mr Andrea Iannone requested analysis of his B sample which also confirmed the result of the A sample analysis.

The hearing of the International Disciplinary Court (CDI) took place today at the FIM Headquarters in the presence of a panel of three judges of the CDI where Mr Iannone had the opportunity to present his case.

The proceeding is still ongoing until a CDI decision is rendered. Mr Andrea Iannone remains provisionally suspended until then and is therefore barred from participating in any motorcycling competition or related activity until further notice.

Under the World Anti-Doping Code and the FIM Anti-Doping Code, the FIM is unable to provide any additional information at this time.

About the FIM (www.fim-live.com)

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 111 National Federations throughout the world. It is recognised as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
